[github.com/thekids1002](https://github.com/thekids1002)

A highly motivated Backend Developer with 2 years of experience in Laravel and PHP, and knowledge of Java and Spring Boot. Skilled in developing scalable backend systems, designing RESTful APIs, and integrating third-party services. Focused on building efficient, maintainable solutions and optimizing performance. Experienced in Agile environments and collaborating with cross-functional teams. Always eager to learn new technologies to improve development processes.

## EDUCATION

### Bachelor's in Information Technology

Sai Gon University

Oct 2019 - Apr 2024

GPA: 3.0/4

## SKILLS

**Backend:** PHP, Laravel, Java, Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, NestJs,

**Mobile:** Android Java, React Native

**Version control:** Git, Github

**Database:** MySQL, PostgreSQL, SQLite

**API & Real-time:** RESTful API, WebSockets, Socket.IO, Firebase, FireStorage

**Frontend:** jQuery, JavaScript, HTML, CSS

**DevOps & Build Tools:** Git, GitHub, Redmine, Github/GitLab Actions, Maven, Gradle

## WORK EXPERIENCE

### Backend Developer

#### GOJOB VIETNAM TECHNOLOGY COMPANY LIMITED

Sep 2024 - Present

Ho Chi Minh

- Developed backend services using Laravel.
- Designed and implemented RESTful APIs and built core microservices for scalable applications.
- Provided occasional frontend support with Next.js and TypeScript.
- Deployed and managed Laravel applications on Ubuntu servers

### Backend Developer

#### Briswell-VN

Jan 2024 - Aug 2024

Ho Chi Minh

- Develop and maintain backend applications for the company's systems using **Laravel**.
- Design, build, and optimize RESTful APIs for web and mobile applications.
- Collaborate with Frontend, QA, and DevOps teams to ensure system stability and high performance.
- Perform maintenance, updates, and system upgrades as per project requirements.
- Apply Agile/Scrum development methodologies to ensure timely progress and work quality.
- Ensure clean, maintainable code and adhere to company coding standards

### Backend Developer- Contractor

#### ISD CORP

Aug 2023 - Dec 2023

Ho Chi Minh

- Assisted in the development of backend services for the warehouse management system, following provided documentation and established processes.
- Worked with PHP and PostgreSQL to implement basic backend functionalities, including data storage and retrieval for inventory management.
- Supported the integration of APIs for communication between the backend system and PDA devices used in the warehouse.
- Followed best practices and guidelines provided by the team to ensure consistency and quality of the codebase.
- Gained hands-on experience in backend development, learning to work in a real-world environment and collaborating with team members.

### Mobile React Native Internship

#### ALTA SOFTWARE

May 2023 - Aug 2023

Ho Chi Minh

- Learned React Native through hands-on experience, completing two mobile applications.
- Developed problem-solving skills by working on real-world projects.
- Gained proficiency in reporting and presenting technical ideas effectively.
- Built a solid foundation in mobile development, preparing for future career growth.

PROJECTS

|   |                            |
|---|----------------------------|
| <b>Talent Fusion</b>   | <b>Sep 2024 - Present</b>  |
| <ul style="list-style-type: none"><li>● <b>Description:</b> AI-powered recruitment platform for the Southeast Asian market, enhancing job matching efficiency.</li><li>● <b>Used technologies:</b><ul style="list-style-type: none"><li>- Backend : Java, PHP (Laravel), Firebase, Websocket.</li><li>- Frontend : Frontend (for integration): NextJs, Tailwind CSS.</li></ul></li><li>● <b>Teamsize:</b> 7</li><li>● <b>Responsibilities:</b><ul style="list-style-type: none"><li>- Developed and maintained backend services using Java, PHP (Laravel), and Firebase, ensuring seamless performance and data synchronization.</li><li>- Implemented real-time chat functionality with WebSocket for candidate-recruiter communication, improving interaction efficiency.</li><li>- Collaborated with frontend developers to integrate backend services with Next.js and Tailwind CSS for a smooth user experience.</li><li>- Optimized API endpoints and database design for scalability and performance.</li><li>- Integrated AI-powered job matching features into the platform to enhance job matching efficiency.</li></ul></li></ul>  |                            |
| <b>Card Hub</b>    | <b>Sep 2024 - Present</b>  |
| <ul style="list-style-type: none"><li>● <b>Description:</b> Card Hub is a digital card platform designed to facilitate easy and instant information sharing between users through QR code scanning. The platform allows individuals to create, share, and manage digital cards, making networking and contact sharing more efficient.</li><li>● <b>Used technologies:</b><ul style="list-style-type: none"><li>- Backend : PHP (Laravel), Firebase, Websocket.</li><li>- Mobile : Flutter</li></ul></li><li>● <b>Teamsize:</b> 5</li><li>● <b>Responsibilities:</b><ul style="list-style-type: none"><li>- Developed backend for the digital card platform using Laravel, managing user data and card information.</li><li>- Integrated WebSocket for real-time communication and notifications.</li><li>- Utilized Firebase for user authentication and real-time database updates.</li><li>- Collaborated with the frontend team to integrate QR code scanning and card-sharing features.</li><li>- Designed and optimized APIs for user profiles and card management.</li><li>- Improved platform performance and scalability by optimizing backend processes.</li></ul></li></ul> |                            |
| <b>Mimaki - E-commerce &amp; Warehouse Management System</b>   | <b>Jan 2024 - Aug 2024</b> |
| <ul style="list-style-type: none"><li>● <b>Description:</b> A comprehensive e-commerce and warehouse management system developed for a Japanese partner. The platform consists of:<ul style="list-style-type: none"><li>- Admin website: Built with Laravel &amp; Blade, used for managing products, orders, customers, and inventory.</li><li>- API services: Developed using Laravel to support the warehouse management application.</li><li>- Webview for mobile app: Implemented with Blade templates, optimized for customer interactions.</li></ul></li><li>● <b>Used technologies:</b> Laravel, Blade, MySQL, S3.</li><li>● <b>Teamsize:</b> 5</li><li>● <b>Responsibilities:</b><ul style="list-style-type: none"><li>- Developed and maintained RESTful APIs using Laravel.</li><li>- Designed and implemented Blade templates for the webview of the mobile app..</li><li>- Implemented S3 storage for media and file management, optimizing the system's scalability and performance.</li><li>- Worked on both backend and frontend development, contributing to all stages of the project, from data handling to user interface design.</li></ul></li></ul>              |                            |
| <b>Digiworld PDA Warehouse</b>  | <b>Aug 2023 - Dec 2023</b> |
| <ul style="list-style-type: none"><li>● <b>Description:</b> A warehouse management system designed for Digiword's warehouse operations. The system facilitates inventory management, order processing, and integration with PDA devices for real-time data input.</li><li>● <b>Used technologies:</b> PHP (Laravel), PostgreSQL, API.</li><li>● <b>Teamsize:</b> 5</li><li>● <b>Responsibilities:</b><ul style="list-style-type: none"><li>- Assisted in the development of backend services for the warehouse management system, following provided documentation and established processes.</li><li>- Worked with PHP and PostgreSQL to implement basic backend functionalities, including data storage and retrieval for inventory management.</li><li>- Supported the integration of APIs for communication between the backend system and PDA devices used in the warehouse.</li><li>- Followed best practices and guidelines provided by the team to ensure consistency and quality of the codebase.</li><li>- Gained hands-on experience in backend development, learning to work in a real-world environment and collaborating with team members.</li></ul></li></ul>         |                            |
